## FREQUENTLY ASKED QUESTIONS (FAQs)

What's up with your name? Is it just something to rhyme with bounce?

*No. When I first started DJ'ing, I honestly didn't take it 100% seriously because I was used to playing traditional instruments. So I opted for a silly sounding name. Some DJ's can work names like "DJ Super Mega Killa", but I'm not that awesome. Jounce is actually a physics term. I'm being serious (now).*

So what's your music background?

*I began writing and performing music in grade school. I was a band nerd. I'm still a nerd. I graduated from the Recording Institute of Technology (RIT) at the Musicians Institute in Hollywood, CA. I play guitar, piano & bass and I think I'm an exceptional singer in the shower.*
